CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals(AZ900 | AZ-900) Credential ID: 74826343802322F | Certification number: W5508F-B21B7B Earned on September 19, 2026
- Introduction to Cybersecurity: Cisco Networking Academy Certification | 2025
- Ethical Hacker: Cisco Networking Academy Certification | 2026
- Introduction to Modern AI: Cisco Networking Academy Certification | 2026
- 2025 Salesforce Supported Virtual Internship Program – Philippines | 2025
- Google Cloud Gen AI APAC Cohort 2 | Hack2Skills | Student Track 2026

EXPERIENCES

Boxhive Solutions Inc. - Voluntary Internship (June 2026 - August 2026)

- Gained hands-on experience in software development and IT operations by supporting application development, troubleshooting, testing, documentation, and project implementation.
- Developed the Gumande Tires Philippines website to meet client requirements and deliver a responsive, user-focused web solution.

PROJECTS

AlertU - Capstone Project (Lead Full-Stack Developer, UI/UX Designer) | 2026 - Present

A disaster alert and incident reporting system for Paombong, Bulacan.

Tech Stack: Firebase, Flutter, Express.js, React.js, Node.js, Backblaze B2, Agora SDK, WebSocket.IO, REST APIs

Live Demo App: https://github.com/bulsu-mjoespiritu/alertu_mobileApp

- Designed the system architecture and user interface for the disaster reporting system from the ground up.
- Developed the full-stack web and mobile system using React, Flutter, Node.js, Express.js, Backblaze b2 and Firebase.
- Implemented core features including incident reporting, real-time updates, emergency alerts, and report management.
- Integrated backend services, database, file storage, and real-time communication to support system operations.
- Tested system functions, fixed bugs, and improved features to ensure they met the project requirements.

Gumande Tires Philippines - (Boxhive Solutions Project) | 2026

A responsive business website for Gumande Tires Philippines, providing product, service, location, and customer information.

Tech Stack: NextJs, Postgre SQL, Docker, CMS, REST APIs, OpenStreetMaps

Live Website: <https://www.gumandetiresphilippines.com/>

- Developed core features including product and service browsing, business information, and customer contact functionality.
- Implemented responsive page layouts and navigation using Next.js and a CMS for content management.
- Integrated PostgreSQL, REST APIs, and OpenStreetMap to support business data and location-based features.
- Containerized the application using Docker and tested website functionality across desktop and mobile devices.

EVENTS & ACTIVITIES

DevOps User Group Event 01 | Wankuma Alliance(わんくま同盟)

- Attended the DevOps by Wankuma Alliance event to learn about DevOps practices, CI/CD, and cloud-native development.
- Gained insights into modern software deployment, automation, and monitoring practices from industry professionals.

Google Developer Groups: Build With AI

- Attended GDG Build with AI Manila to learn about generative AI, Google Cloud, and AI-powered application development.
- Gained insights into practical AI use cases, development tools, and modern cloud-based AI solutions.
